

*Also Teller made same proposal in 1967-1971
WILL GOD ALLOW?*

OCT 24 1957

RHC

WASHINGTON, Oct. 2, (AP)- A University of Maryland scientist today proposed the moon as a safe, remote site for testing hydrogen bombs.

Dr. S. Fred Singer said it will be no greater technical problem to send an interplanetary ballistic missile (IPBM) 240,000 miles to the moon than it will be to launch an intercontinental missile (ICBM) 5,000 miles.

He said some of the debris kicked up from blasting craters on the moon may shower the earth with dust particles and even boulders.

This isn't the first time that an unmanned rocket has been proposed to be fired into the moon but this writer believes it is about time to speak out against such a lunatical plan. What right have we to invade the universe with our weapons of hate? What do we know of other life than of our planet Earth? Are we certain that life does not exist on the moon, even if only as a base for space craft? Do our telescopes tell the truth through the Earths' atmosphere: bring our sufficient detail to prove fact? If man chooses to be warlike, has he a moral right to leave this earth? Should we not let our government officials know how we feel? Write them if you disapprove. It could be too late, too soon.

NEW BOOKS

The following publications are listed here for information only and are not necessarily endorsed by the editor of the KFSSC Bulletin.

THEY SHALL BE GATHERED TOGETHER, by John McCoy. Its purpose is to tell of the Great Plan that is now manifesting on Earth and to explain more about the groups and individuals taking part in the New Age Work. Who are they? Where do they come from? Is the prophecy contained in the 13th. Chapter of Mark coming to pass in modern times? It contains new accounts of contracts in Texas and Canada and also has several full page illustrations. George Hunt (Ric) Williamson has a special article for the book entitled "Coming World Changes". Messages from the Masters of this planet and the space people are included. - Order from John McCoy, P.O. Box 3433, Corpus Christi, Texas. \$1.95 each.

OVER THE THRESHOLD, by Dana Howard. In her latest book, Dana Howard has written an account of startling adventures in New Age realities. Through the mouthpiece of a beautiful out-of-space messenger, Diane, "Over the Threshold" shows us a way to reach tomorrow's greatness to-day.

Many earthlings have realized that our planet is entering a new phase - that we must be prepared to move along with it. "Over the Threshold" tells how that preparation can be attained. It answers such age-old problems as the Secret of Youth - Reincarnation - Disease and Destruction - Religion. It provides a satifying answer to the mystifying flying saucer phenomena of the past decade.

This inspiring book shows how we might tap and utilize the creative essences stored in the highest ethers. "Over the Threshold" provides scientists with the clue to our nebulous future. - Order from Dana Howard, Box 68, Palm Springs, Calif. \$3.25 each.

THE INEXPLICABLE SKY, by Arthur Constance. The fantastic story of the heavens-- meteors, fireballs, mirages, things that fall from the sky, and the latest facts about flying saucers.

Arthur Constance presents an almost endless compendium of the wonders that have been reported in the sky and scoffed at by men with little minds. He flatly refuses to accept moth-eaten theories simply because some orthodox astronomer pronounced from the loftiness of his observatory that they are so. Here is one world-recognized authority who is convinced that beings are coming to our world from other worlds or other dimensions.

The challenging pages of THE INEXPLICABLE SKY reveal mysteries concerning the moon and the queer things that have been seen on it...the truth about living creatures that have often fallen from the sky...odd facts about sunsets, lightning and the like...records of all kinds of strange "sky phenomena." - Order from The Citadel Press, Dept. S 11, 222 Fourth Ave., New York 3, N. Y. \$3.95.

McCoy Pamphlets Available

Ten year history of flying saucers, 16 pages, 10%. Available at the meeting or write UFO 2233 Cambridge Drive, Kalamazoo, Michigan.

BOARD OF DIRECTORS REORGANIZED

At its meeting of Oct. 15th. the board of directors reorganized for a more efficient acting body. Each member of the board has been given a specific title and a specific job to do. Your members of the board are:

Chairman - Bill Maier

Program Chairman - John Brinson

Secretary-Treasurer - Rae Simbulan

Librarian - Romiro Besada

Tape Librarian - Bob Lowell

Hostess - Pat Kuplicki

NEXT MEETING - FIRDAY OCTOBER 25, 1957

"Objective researchers often fail to realize that everyone is entitled to an opinion and the expression of that opinion. Likewise, imagination as many times employed in non-objective research--is of prime import to most of the anomalies that have plagued us throughout history."

"On the other hand, the subjectives--including those interested in the so-called contact stories, psychic phenomena and kindred fields--generally fail to realize that they are pushing the public and press media, and consequently their goal, away from them by a lack of discrimination, by excessive imagination and unsubstantiated claims, and by not exposing the obvious frauds which are beginning to plague this research."

THE PHYSICAL & THE METAPHYSICAL IN FLYING SAUCER RESEARCH will be the dual topic of the program portion of our next meeting, to be held at the Crosstown Branch of the First National Bank, 8:00 P. M. Latest report from NICAP, book review of "They shall Be Gathered Together", board of directors report, details of the club library will also be presented.
